ULTIMATE CHECKLIST

TICK WHAT YOU WANT TO SEE!

Make Zelda a playable character

● In **BOTW2**, Link and Zelda are separated after the ground collapses. While we still want to play as Link, exploring the depths below Hyrule as Zelda would be epic! The series is named after her, right?!

More Durable Weapons

● In the sequel, we'd like the weapons to last longer than a few swings! Maybe bring in an unbreakable item or a blacksmith that rebuffs weapons?

Different Dungeons

● There were only four classic dungeons in the first game – we'd love to see more this time around, with more challenging puzzles and cooler bosses!

Better Enemies

● **BOTW** is one of the best games ever, but the enemies were a bit samey – we're looking at you **Bokoblins**! Some more variety in looks and attacks wouldn't go amiss!

TOP ZELDA TIPS!

FOLLOW THESE TIPS AND YOU'LL BE THE HERO OF **HYRULE** IN NO TIME!

PRO TIP!

Fire is great for destroying enemies but it's also handy for travelling. Start a fire and it'll create an updraft you can paraglide into!

NEWBIE TIP!

Always running out of energy too quickly? Complete some shrines and trade in four spirit orbs for health and stamina boosts!

LEVEL UP!

LEVEL UP YOUR GAMING SPACE!

FREE PLAY!

★ You don't need to spend all your hard-earned cash on elite gamer gear to have a pro-gaming set up! Somewhere to sit, a console, screen and controller are all you need to rack up XP! But wherever your space is, you'll need to follow some rules to keep it gaming ready...

CLUTTER BUSTER!

★ Ever find yourself stuck for room, elbows knocking over stuff in your space? Uh oh - sounds like your space is suffering from CLUTTER! You can use pencil holders, controller stands and cable ties to keep stuff neatly stored away - but a handy box or drawer will also do the trick!

SNACK FREE!

★ Gaming is hungry work! You might want to find a snack to chow down on while you blitz through some levels. But for the best gaming experience, you should make your station a snack-free zone to keep your gamer gear tidy and safe. Instead try and take breaks from your console to eat.

POWER UP!

When it comes to speed, **Mbappé** is racing ahead in the football world! He's the fastest player in **FIFA 22**, and once even matched the speed of **Usain Bolt**!

KYLIAN MBAPPÉ

DID YOU KNOW?

★ At 19 years old, he became the second teenager **EVER** to score in a World Cup final!

★ His iconic celebration is inspired by his little brother - who used to cross his arms when he scored playing **FIFA**!

★ **Mbappé** is believed to be the highest paid player in the whole world!

★ He has his very own comic book called **Je m'appelle Kylian**!

DAMAGE ALERT!

Mbappé is primarily a goal scorer, so don't expect too many assists from him! Just give this speed demon the ball and let him work his magic.

OVERWATCH 2

The wait for **Overwatch 2** is almost over, six years after the release of the original game. **Null Sector** have launched a barrage of attacks around the world and **Overwatch** must take a stand.

Winston, Tracer, and other members of the original **Overwatch** join forces with a new generation of heroes in co-operative Story Missions. Not much has been revealed about the PvE mode for now with it releasing at a later date, but we have high hopes for it and can't wait to give it a go!

A new hero is expected to launch every other season, and new maps and modes will be released in between, meaning there will always be something new to look forward to!

If you were a fan of the original game, one of the biggest differences you'll notice is that there will be 5v5 matches rather than 6v6 with only one tank hero for each team. Don't be disappointed by this, we think this will make the matches feel smoother and less chaotic!

Competitive gamers will enjoy the new Push match type which sounds like it'll be a lot of fun. The aim is to guide a robot into enemy territory, with the winner being the team that gets furthest into their opponent's turf. This might sound easy, but there's going to be barriers along the way!

We love that you'll still be able to play with your friends, even if they have a different console thanks to the games cross-play feature. We can't wait!

PAC-MAN WORLD RE-PAC

Pac-Man arrives home to celebrate his birthday only to find the **Ghosts** have kidnapped his family!

He must adventure through six areas of the mysterious **Ghost Island** to rescue his family while taking on all kinds of bad guys that stand in his way. Each rescue gives you an advantage for the final boss battle against **Ice-Man**!

You won't just be chomping fruit and dodging **Ghosts**. In this adventure, you'll be solving puzzles and collecting items in each area. Unlike any other **Pac-Man** game that you've played before, he can rev-roll, butt-bounce enemies, and hover jump! With the **Metal Pac-Man** power-up, you can become invisible, walk underwater, and even become **Mega Pac-Man**!

The game is a remake of **Pac-Man World**, which was released more than 20 years ago. It has new graphics, a smoother gameplay, as well as an awesome new look for **Pac-Man**!

TURBO GOLF RACING

If you ever thought golf was slow and steady, think again! **Turbo Golf Racing** puts an incredibly fun and fast-paced twist on the sport.

The aim is simple - slam turbo charged cars into oversized golf balls towards the finish as fast as you can. While the controls are easy to grasp, it starts to feel a little chaotic as you race against other players online who you can see flip, glide, and charge their way down the fairway.

Not only is it a visually stunning racing game, but it's also one you could play for hours with your friends.

Turbo Golf Racing is a lot of fun, but if you're not into racing games, this probably isn't the top pick for you. However, we think this is one game **Rocket League** fans should keep on their radar!

YOUR RATING:

OUR RATING:

Everything from the rocket-powered cars to the winding tracks, is futuristic and colourful.

+ FAST PACED AND FUN

- ONE TYPE OF GAME

MX VS ATV LEGENDS

MX vs ATV Legends

is the latest entry in the popular racing game series, bringing new vehicles and open environments to explore. It offers a Career Mode, where different events happen based on the decisions you make as the story progresses - which is super-cool!

The controls were a little fiddly and a simpler, arcade-style might have been easier to master. Even after the tutorial, riding bikes was a challenge!

There were some annoying glitches that hopefully can be fixed in a future update - at one point it said we were off the track when we weren't, and it dropped us back facing the wrong way!

For us, the real fun is that up to 16 players can play online games! We also thought it had a brilliant soundtrack to get you in the mood, too.

If you don't mind a bit of a learning curve - and the odd glitch - **MX vs ATV** is still a fun racer that will have you giggling when things go wrong!

ELECHHEAD

Elechhead is a ridiculously fun puzzle platformer that's a bit like **Capcom's** well known **Mega Man** series that follows a brand-new little robot called **Elec**.

Elec can activate electronics just by touching them. He can also activate things further away by throwing his head, but if his body can't get back to his head within 10 seconds, it will shut down and he won't be able to progress! You'll have to use your head to work out the best way to use **Elec's** unique powers to get to the end of each stage, which adds some tension to every screen.

We love that this game has good puzzles, is fun, but isn't too hard or frustrating at any point. It has simple controls, and you can complete it in under three hours, making it the perfect game for busy gamers!

CURSED TO GOLF

If you're looking for a game that's cute and different, **Cursed to Golf** is one to keep an eye on.

In the upcoming adventure, you play as a character called **The Champ**, who is hit by lightning when they are going for the winning shot at a tournament. After waking up at a ghostly golf shop called the **Berni-tee**, **The Champ** learns the only way to escape from Golf Purgatory and get back to the world of the living is to play their way through all 18 holes.

With its cute graphics that remind us of **Game Boy Advance** games and a catchy retro soundtrack, **Cursed to Golf** has a fantastic vibe to it. Each area is unique with different challenges as you go on your journey, too. We haven't played anything like **Cursed to Golf** before, but we think we'd want to see the side-scrolling, golf adventure right through to the end!

MARIOKART HACKS

USE THESE TIPS TO HAVE THE COMPETITION EATING YOUR DUST!

BOWSER'S CASTLE

● If anything is gonna slow you down on this track, it's the giant **Fire Bowser** throwing punches! As you approach this bit, take note of which side he's about to punch and speed up. Chances are he won't have enough time to punch it again!

TOP TRACKS

How would you rank these racetracks?

MOUNT WARIO

/10

RAINBOW ROAD

/10

CHEEP CHEEP BEACH

● While travelling too far into the water will result in you falling off the course, there are parts of this track you'll survive in. You'll need a mushroom to boost but you can drive through the shallow, light-coloured water to get ahead of other racers!

SHY GUY FALLS

● As you make your way up the waterfalls, keep an eye out for the boost pads. They come down in a left-right pattern so after a few tries, you'll be able to hit them perfectly every time!

MUSIC PARK

● This is tricky, but it can be the difference between 1st and 2nd place! There are big black notes that slam down, with anyone caught by them slowing down. However, if you jump juuust as they're about to slam, you'll get a stunt boost!

HOW TO PLAY **AMONG US** WITHOUT BEING SUS!**TOP IMPOSTER****BLEND IN**

Imposters don't have tasks to complete, but faking it is the best way to seem like you're a regular **Crewmate**! You can also avoid suspicion by voting along with the majority.

SURVIVING EMERGENCY MEETINGS

Being quiet in meetings makes it easier for other players to gang up on you, but throwing wild accusations around is also very **SUS**. The key is to take part without drawing too much attention!

**PLAY IT COOL**

Eventually, another player may point their finger at you, but don't sweat it! Learning the map can help you come up with a solid alibi – knowing where the tasks are makes you seem less suspicious!

TOP TIP

You wouldn't expect an **Imposter** to call an emergency meeting. It could be the perfect opportunity to frame other players if you time it right!

HACKS!

BE STRATEGIC

Try to keep the **Crewmates** that others are most suspicious of around for a little while, even if they're an easy target. Stack kills can also be handy – but don't over do it. Other players will get SUS when they notice that you're always around when there's a crowd!

SABOTAGE

That sabotage button is there for a reason so make sure to use it! If everyone rushes to fix the problem, you can strike a **Crewmate** who was either a little slower to react or one who continued to work alone in a different area.

QUICK TIP

Arriving late to a sabotaged area has SUS written all over it so you better act fast!

WHO DO YOU PREFER TO PLAY AS?

FRASER2THEMAX

ROBLOX
ROUND UP!

Each month we check out Fraser2TheMax's fave Roblox game. This month, it's **Survive the End of Roblox!**

WHAT IS IT?

"In this game, you're chilling in a beautiful Robloxian city when suddenly disaster strikes, and every bad thing imaginable happens! Buildings collapse, volcanoes erupt, and nukes go off! It's your goal to survive and escape the island!"

BEST BIT!

"My favourite part of the game is the players! A lot of the people who play the game take it very seriously and you can have good fun playing with friends. If – when disaster strikes – one of them gets hit with a boulder, a tear may even fall down your eye! I had a fantastic time playing it and made an awesome friend."
